PROTECTION COVER

different sizes  
color taupe

POLYESTER

The Jardinico polyester is a weather-proof, high quality fabric that offers an optimal protection against UV rays. 100% polyester - 250g/m<sup>2</sup> - Teflon® coated.

TEXTILENE

Creating shade without taking away the sky view is only one of the exceptional features of Textilene. Next to its remarkable aesthetic qualities, it has an excellent resistance to UV rays, it dries quickly, remains cool even in sunlight and combines comfort with trouble-free care.

ACRYL

Woven from solution-dyed acrylic fibres, Sunbrella™ outdoor fabric is specially designed for use outdoors. Its color holds fast over time and it is highly resistant to water, greasy substances and UV rays. Easy to maintain, it can remain outdoor, whatever the weather.

OLEFIN

Olefin is a synthetic fiber that is much appreciated because of its strength, colorfastness and comfort. This very lightweight material dries quickly and is stain and sunlight resistant.
