

ASSORTMENT 2022

MOVING TO
100%
CIRCULAR DESIGN

 **brabantia**

HELLO.

Dear Customer,

2021 has had ups and downs for all of us. But let's focus on the good. We celebrated the start of the build of our new, sustainable headquarters, for instance. And we introduced the new StepUp pedal bin, a great step towards reaching our sustainability goals and those of our users. Of course, in 2022 we'll be continuing to take steps towards 100% circular design, always looking for the sweet spot between design and sustainability.

We also plan on spreading joy with the new MindSet collection; luxury bathroom and toilet accessories that stimulate the senses, creating a helping personal space. Laundry turns from chore to cheer with new designs and colours for accessories like our Clothes Hangers and Pegs, and new products like the Sock Holder for Brabantia Drying Racks, MoodBooster Ironing Board Covers and a fab Limited Edition Spring Pink Rotary Dryer. Also, our PerfectFit Bags will be sporting a new design.

Besides that, we are introducing a great set of new, mood boosting colours for i.e. newIcon and Bo Bins, Bread Bins and Canisters: a harmonious Soft Beige, a hopeful Dreamy Blue, an earthy and classy Mineral Cosy Brown and a popping Mineral Powerful Blue. Great hues, bringing new energy to both shops and homes.

As you can see, we are all set up to make 2022 a turn for the better. As always, we're ready to support you with point-of-sale material, digital content packages, consumer advertising, service and web support to StepUp your sales game. And of course, we are happy to help you in any other way. Just let me or a member of my team know.

Best wishes,
Jos van Baal

WELCOME.

WITH LOVE AND CARE.

We love the planet as much as you do, and we want to leave it more beautiful for the next generation. Sustainability is in our nature, and in our products. We are committed to becoming 100% circular in all our designs. It's ambitious, but nothing worthwhile is ever easy.

MOVING TO 100% CIRCULAR DESIGN

Call it a purpose, a mission or even a compulsion. Whatever words you choose, it's a real thing. Caring for others and the environment, caring for the earth that nurtures us, the air we breathe and the water that helps us flourish. We're not perfect, but we're all responsible and we all have a part to play. Some small, some big. It's in everything we do and always has been. We create products where beauty meets sustainability. And right now, it's more important than ever. Why? Because there's no longer a choice between profit or planet, we're entering a period in time where all of us have the chance to make a difference. With every action we take, with every decision we make. That's why we're choosing to leave the next generation a legacy, not a mess. We're making the move to 100% circular design by 2035. How about you?
