

ASSORTMENT FOB CHINA 2018

HELLO.

Dear Customer,

I am very happy to present you our 2018 Assortment which we bring directly from China. You'll find a whole new selection of products, colours, concepts and solutions inside. Making your customers' lives more beautiful and giving your business a competitive edge in this dynamic market at the same time.

As a family business, we care about the products we make and the impact they have on people and the planet. That's why we produce sustainably and design recyclability into all our products. We are going for 100% recycling within the next decade. Making the world more beautiful today and for generations to come.

No matter what people are doing around the home, they'll love doing it even more with our smart products. Like our newest tools for laundry washing and drying and our smart solutions for easy ironing, lightening up any laundry day. The new contemporary colours introduced in both our extended series of kitchen helpers and bathroom collection will surely wow your customers.

We are looking forward to receiving your orders.

Yours sincerely,
Jos van Baal
