

Cutipol
PORTUGAL

CUTIPOL is the best result of a constant effort for improvement, an insatiable spirit of innovation and the gathering of expertise and know-how over several generations going back to the very origins of the cutlery industry in Portugal.

The biggest quality manufacture has been regarded not as an option but as an absolute necessity.

Judicious selection of raw materials.

Ergonomic study of the shapes. Sober, practical and refined design. Perfection in finish. Quality control with total commitment. Available in sterling silver and chromo-nickel 18/10, silver-plated. Gilt.

In a sector such as cutlery, where classical design and materials have predominated for decades, **CUTIPOL** sees it as essential to present a very diversified range of cutlery.

The **CUTIPOL** range includes traditional and modern design, in which great attention has been paid to detail. These new modern patterns called for a great deal of technical knowledge and meticulous care.

Although modern machinery is used for much of the initial work, the old traditional craftsmanship still plays a major role.

CARE INSTRUCTIONS

CUTIPOL SELECT THE FINEST RAW MATERIALS TO PRODUCE THEIR FLATWARE PIECES. HOWEVER, EVEN THE HIGHEST QUALITY STAINLESS STEEL MAY STAIN IF NOT PROPERLY TAKEN CARE. TO MAINTAIN THE LOOK OF YOUR CUTIPOL CUTLERY THROUGHOUT THE YEARS FOLLOW THE RECOMMENDATIONS BELOW.

AFTER EACH USE, WASH THE CUTLERY IN WARM WATER AND MILD DETERGENT. AVOID USING DETERGENTS WITH CHLORINE OR ANTHLIMESTONE AGENTS.

HANDWASH

WHEN HAND WASHING YOUR CUTIPOL CUTLERY, AVOID USING ABRASIVE CLOTHS OR SCRUBS.

BE SURE TO WASH OFF ANY FOOD REMAINS AS SOON AS POSSIBLE AFTER USE.

DISHWASHER

IF WASHING YOUR CUTLERY IN A DISHWASHER, MAKE SURE THAT AT THE END OF CYCLE THE FLATWARE PIECES ARE COMPLETELY DRY.

HAND DRY THEM WITH SOFT CLOTH, IF STILL YET.

MINIMIZE CONTACT OF THE FLATWARE WITH THE DISHWASHER STEAM. REMOVE THE CULTERY FROM THE DISHWASHER AS SOON AS THE CYCLE HAS FINISHED AND WIPE EACH ITEM WITH A DRY SOFT CLOTH, EVEN IF THE ITEM LOOKS DRY.

KNIFE BLADES

TAKE EXTA CARE WITH KNIFE BLADES. KNIFE BLADES ARE MADE OF 420 STEEL TO GIVE THEM MORE CUTTING POWER AND HARDNESS. THIS MEANS THEY ARE LESS RESISTENT TO OXIDATION .

MAKE SURE THEY ARE WASHED STRAIGHT AFTER USE AND WELL DRIED BEFORE PUTTING THEM AWAY.

THEY SHOULD BE KEPT IN A DRY PLACE.
